Registration dots are provided for placement of each Hockey Stick graphic piece.

We suggest setting the Door pieces first, using Door Jamb spacing as a placement locator, then install the Front Fender pieces according to the registration dots. Once graphic is successfully installed, simply remove the dots. Top of graphic is set to follow the Camaro's distinct upper body line on the Door and then it falls from the body line to where the graphic cut line is in place with Header-Fender connection.

Dryfitting each piece prior to installation will allow you to become familiar with placement.
