Installation Tip: Precut graphic pieces have been designed to fit along the Camaro's distinct upper body lines as shown in the product image.

We suggest installing the Door pieces first, followed by the Rear Fender piece and then the Front Fender piece. Top of Front Fender piece is designed to fall from upper body line approximately 1" (25.40mm) at front tip. This should allow curve of "Devil's Tail" to follow distinct indentation of Front Fender flare.

Dryfitting each piece prior to installation will allow you to become familiar with placement.
