## Wood Panel Graphics Kit

*Auto Trim* DESIGN

High-definition  
Wood Grain &  
precut openings.

Very easy to  
install nine (9)  
piece kit.

*R*

Reminiscent of the 1950 Dodge Coronet "Woody", our nine (9) piece easy-to-install Wood Panel Graphics kit is created specifically for the Dodge Caliber. The unique three dimensional wood grain print is captured in this high-definition digital print that's capped off with a clear, high-gloss protective lamination which will protect your vehicle for years to come. Our kit is precut and set for installation at the Caliber's distinct upper body line. Pieces are contour cut and all openings are removed for ease of application - NO TRIMMING or CUTTING required! In fact, seasoned installers should be able to apply this kit within 1-2 hours. Available exclusively from Auto Trim DESIGN and related distributors, kit is provided with a Five Year Limited Warranty and easy-to-follow general online installation instructions with care guide.
