

Due to the difficulty of installing a one piece stripe on the Valance, a two (2) piece spliceable set is provided. We suggest installing the Front Valance Lower pieces first as the Front Valance pieces are designed to splice/overlap approximately 0.20" (5.08mm) over the Front Valance Lower pieces at time of installation.

Note: Rally stripe graphics provided by the factory are generally painted on the vehicle. As such, stripes tend to bend into and out of inner areas such as Hood and Rear Lid openings.

Pieces provided with this kit DO NOT lap into such areas but rather stop, with slight margin, at the end of each panel of application. Margin of vehicle paint exposure from panel edge ranges from 0.0625" (1.58mm) to 0.125" (3.175mm).

Due to the difficulty of installing a one piece stripe on the Rear Lid, a two (2) piece spliceable set is provided. We suggest installing the Rear Lid Rear pieces first as the Rear Lid Top pieces are designed to splice/overlap approximately 0.20" (5.08mm) over the Rear Lid Rear pieces at time of installation.
