

Victory

Speed Graphic Kit 1 for Victory Vision Parts List ATD-VCTRYGRPH019

Due to the multi-contoured nature of the Vision body panels, each graphic piece requires individual application. We suggest applying the "Main" graphic pieces (shown in Grey) first, followed by the Trim pieces (shown in Red).

To assist in proper spacing, Registration Dots are provided.

Carefully remove Dots after successful application.

Triangles on pieces M and N are included to merely suggest a starting point during application.

Carefully remove Dots after successful application.

Graphic pieces will come together on one sheet, according to it's color. Multi-part Main graphic pieces g, h, m, & n (shown in Grey) should stay together when cutting pieces away from graphic sheet. They've been designed to be placed together during application.

| Part Number | Item | Cost |
|-------------------|---------------------------|----------|
| HBG-VCTRYGRPH019a | Front Fender Trim Left | \$7.95 |
| HBG-VCTRYGRPH019b | Front Fender Trim Right | \$7.95 |

| HBG-VCTRYGRPH019s | Trunk Side Left | \$21.95 |
| HBG-VCTRYGRPH019t | Trunk Side Right | \$21.95 |

Installation Tip: Other than obvious placement and fitment of some pieces, there are no measurements provided. As with most of our graphic products, we suggest dryfitting each piece prior to installation and careful reference to product image(s) to become familiar with placement.

Graphic kit is manufactured with Premium Cast film. With the exception of Silver and Charcoal Metallic, all other colors may be applied using a Dry or Wet Method of application. Silver and Charcoal Metallic are generally provided in "Wrap" Film material and can only be applied using a Dry Method.

On a scale of 1 to 5, with 5 being most difficult, kit Application Rating is a 4. Thus, professional assistance may be required - especially with pieces M and N.

We are happy to provide application assistance during normal business hours. Never be too proud to call ;).
